MISSIONARIES TO CEBU, PHILIPPINES

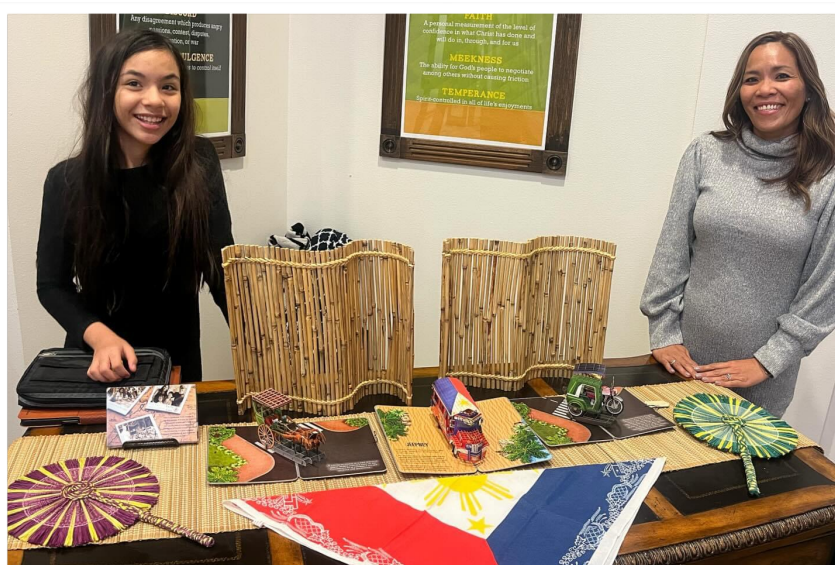

Unfortunately, two months is not enough time to visit all of our supporters and friends here in the U.S., but that doesn't mean you can't still help our ministry take the next step. If you desire to help us establish a Christian school here in Oslob, you can send assistance online or by check via:

The Fast and the Furlough-est

At the time of the writing this newsletter, we are halfway through our two-month furlough. God has been so good to us. He has kept us safe over the last 6,000 miles of travel. We have also been blessed with some new ministry partners, and at this point, we have received almost 1/3 of our \$20,000 goal for updates and additions to our church building to accommodate the future school.

Even while we are here, the ministry in Cebu continues to move forward. Every Sunday our little church hosts a guest preacher. Even one of our own young men took the pulpit for the first time. We can't fully express just how grateful we are that God has given us church members who love Him and His church so much that they have volunteered so much time and effort to keep the church going while we are absent. Please continue to pray for God's provision and protection for Oceanview Baptist Church in Oslob. We are missing our people and can't wait to return home.
